

学 会 出 版 消 息

中国古生物学会第三届全国会员代表大会及第十二届学术年会,1979年4月在苏州召开时,共收到352篇论文,其中有152篇是全文。会后,根据各方面的推荐,由学会编辑委员会选编了中、英文会议论文选集各一册。中文选集中收进三叶虫、苔藓虫、层孔虫、牙形刺、珊瑚、腕足类、瓣鳃类、鲎、古植物等方面的古生物学和生物地层学论文,以及有关研究方法和名词术语探讨方面的论文19篇,还收入尹赞勋理事长的开幕词,卢衍豪副理事长等人,关于中国古生物学建国三十年来研究进展的报告等共22篇,约20万字,已由科学出版社排印,年内即可问世。

英文论文选集的编辑工作,是从1979年10月正式开始的,到去年11月底全部结束,前后历时一年多,是在南京和美国罗彻斯特大学(Rochester University)两地进行的。主编是我会理事长尹赞勋教授和国际古生物协会上届主席泰克特(C. Teichert)教授,另外还有两个编辑。全部稿件的打字工作,是由我会会员朱志康同志担任。

英文选集共收进三叶虫、腕足类、珊瑚、笔石、苔藓虫、古杯类、瓣鳃类、叶肢介、牙形刺、鸢鹑螺、鲎和古植物学方面的论文19篇,还包括理事长的开幕词和中国古无脊椎动物、古脊椎动物、古植物学以及微体古生物学,建国三十年来的研究进展各一篇,共24篇。另外,还收入了国际古生物协会主席泰克特及亚洲分会主席高井冬二教授在苏州会议上的贺词。C. 泰克特教授为本选集在美国的出版尽力甚大,现正在科罗拉多州Boulder城美国地质学会的出版部排印,年底可望出版。

苏州会议期间,由科学出版社发起成立的《古生物学基础理论丛书》和《古生物学论著丛书》编委会,计划出版三十余部专著或高级教材,这次从大会论文中选出从寒武纪到第四纪有关古生物地理分区的论文18篇,编成《中国古生物地理区系》一书,已送科学出版社,将做为这两套丛书的第一册首先出版。

PUBLISHING NEWS OF PSC

When holding the 3rd national congress and the 12th symposium simultaneously in April 1979, the Palaeontological Society of China received from its members about 352 research papers. Among them, 152 were written in full text. After the symposium, the editorial committee of PSC, taking into consideration the recommendations of minisessions, choosed some important scientific papers for publishing two selected works. One is in Chinese and the other in English.

The Chinese selected works embraces 19 papers dealing respectively with trilobites, bryozoans, stromatoporoids, conodonts, corals, brachiopods, lamellibranchs, fusulinids, fossil plants, etc.. It also includes the opening speech of the 3rd national congress of PSC made by Yin Zan-xun, President of PSC, the reports made by Lu Yan-hao, Vice-president of PSC, and others on the advance in the study of palaeontology of China since the founding of the People's Republic of China. This Chinese works, about 200,000 words in all, has been sent to Science Press in Beijing to publish. It will come out in print later in this year.

We started editing the English selected works in October, 1979 and finished it in November, 1980. The compilation of it lasted for more than one year, when the editorial work was being carried on simultaneously in Nanjing of China and in Rochester of U.S.A.. The co-chief editors are Prof. Yin Zan-xun and Prof. C. Teichert. the ex-president of IPA. Two editorial staffs assisted them with this work. Besides, all the manuscripts were typewritten by Zhu Zhi-kang, a member of PSC.

The English selected works has 19 scientific papers dealing with such fossils as

trilobites, brachiopods, corals, graptolites, bryozoans, archaeocyatha, lamellibranchs, conchostraca, conodonts, nautiloids, fusulinids and plants. In addition, it includes Yin's speech on the opening ceremony of the 3rd national congress of PSC, the reports on the advance in the researches of invertebrate palaeontology, vertebrate palaeontology, palaeobotany and micropalaeontology since the birch of new China, and the congratulatory speeches made by Prof. Teichert and by Prof. F. Takai the President of Asian Branch of IPA. Here we have to say that we owe to Prof. Teichert the completion of editing the English selected works, which is now in the press by Geological Society of America in Boulder of Colorado, U.S.A., and it is likely to be off the press at the end of this year.

During the Suzhou's meeting, an editorial committee was organized under the sponsorship of the Science Press of China to make a plan for publishing two series of books: "Basic Theory of Palaeontology" and "Treatises on Palaeontology of China", which are to include over 30 treatises or teaching materials of high level.

Recently we also selected from those presented to the 12th symposium of PSC about 18 papers concerning the biogeographical provinciality from Cambrian to Quaternary and compiled a book entitled "Biogeographical Provinciality of China". The manuscripts have been handed over to Science Press in Beijing. to publish as the first volume of the two series of books.
